

Build a Sturdy Wall

Engineered by

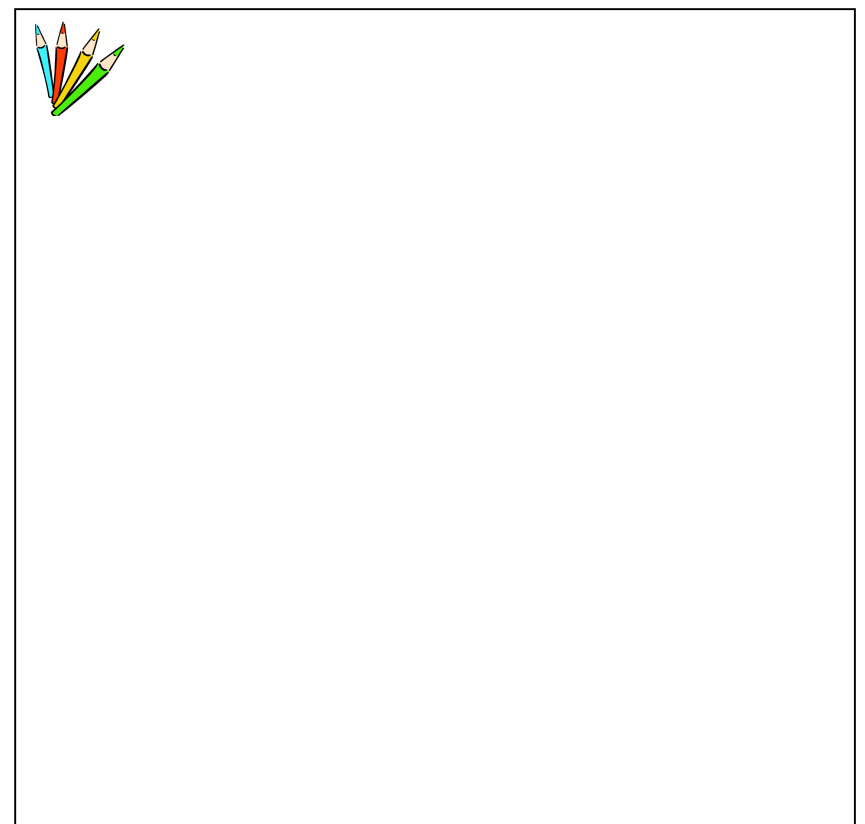

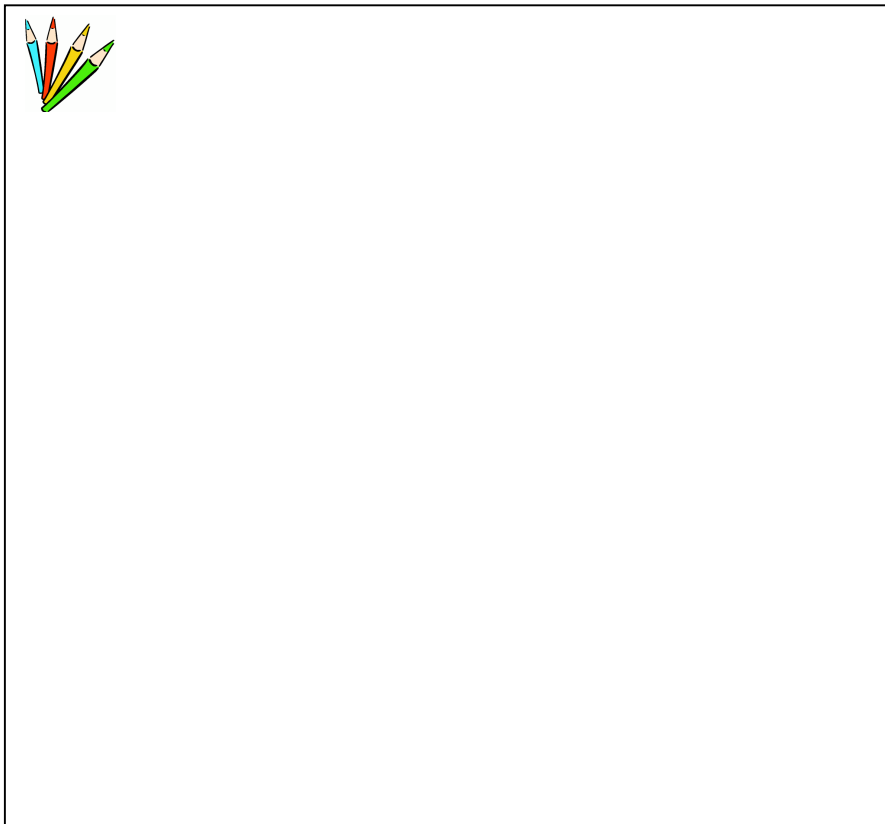

Identify
Problem

Why do buildings have walls? What would happen if walls were not sturdy?

I will need the following things to build my wall:

Brainstorm

These are two different ideas I came up with for my wall.

Choose &
Plan

I have chosen to build my wall like this

My wall has to pass these tests:

1.

2.

Test

I tested my wall and the following happened.

Redesign

Describe one part you had to redesign.
