

Elementary Conference

February 28, 2015

Come engage with educators and engineers to talk about:

Student-led learning and creativity through LEGO® bricks, the Maker Movement in schools, and much more!

The High Tech High Elementary School, Tufts University Center for Engineering Education and Outreach (CEEEO) and LEGO® Education cordially invite you to attend the first ever LEGO Education Elementary Conference.

Conference Purpose

The purpose of the LEGO Education Elementary Conference is to gather teachers and educators who use or plan to use the LEGO Education toolset and more to teach literacy, engineering, math and/or science in their classrooms in order to:

- Try out activities that teach creativity
- Share experiences and ideas for implementing the tools in the classroom
- Learn about the new developments for LEGO Education
- Meet fellow users & international experts
- Hear about research on best practices for STEM learning

Conference Schedule

7:30 - 8:30	Registration, networking, and coffee
8:30 - 9:00	Welcome
9:00 - 10:00	Teacher Presentations
